Statement regarding REACH Regulation

(European Union regulation concerning the Registration, Evaluation, Authorisation and restriction of CHemicals. The regulation came into force on 1st June 2007)

Bellingham & Stanley Ltd is neither a producer nor importer of chemical substances, and therefore are not required to register under the REACH regulation. We are in the process of checking the registration of our sources of substance supply which are used as ingredients in some of our products.

Our products are exclusively destined for use in measurement and analytical Systems, and not, as ingredients for other products.

Overall Bellingham & Stanley Ltd are affected by REACH only as a downstream user and in addition can make use of distinct reliefs detailed within REACH since Bellingham & Stanley Ltd do not process a ton or more of any substance.

Virtually all of our ingredients have been in wide spread use for many years and their hazard potential is well known and documented in safety data sheets.

Bellingham & Stanley Ltd do not expect any restrictions for the production and the further distribution of its products due to REACH.

M. Banks
Plant Director
Bellingham & Stanley Ltd
